

# Make your own Multi Profile Cutter set!

Start with the cutter head first (knives #3319140 included), and then build up your Multi Profile Cutter System simply by purchasing additional pairs of knives from the selection on the following pages.

## Multi Profile Cutter System - 40mm or 50mm Width

The system offers a wide variety of profiles to produce Mouldings, Tongue & Groove, Glue Joints and different shapes that are not available in router bits. The knives are mounted and locked in position by two pins and a locking screw. The wedge provides a safe and secure backing to the knives. The knives are indexable and will produce the same profile time after time. The cutter head is made from premium Steel. The Multi Profile Cutter System is suitable for low powered machines with 1 h.p. or more.
